Lukewarm patriots who persisted a week ago in burning gasoline against the request of the fuel administration were a bit more chary yesterday of provoking the indignation of their fellows, for observers noticed that the number of motorists abroad were much fewer than on the first "gasless" Sunday. Farmers went about the essential business of delivering their milk in autos, and a few cars were used by people from a distance who came to the city to attend church.

In one conspicuous instance a khaki-clad individual who had the hardihood to start out in his motorcycle was repeatedly scored by pedestrians, nor was his companion of the tandem seat exempt. Incidentally, it may be said that the khaki was not of the quality or design furnished by Uncle Sam. People who had urgent business, doctors and others with legitimate errands were not disturbed.

Fur Coats do not change in style. They are made full sweep and in styles that will be good for at least five seasons.

We are showing an exceptional line of Ladies' Marmot Coats. This is a fur that has a nice appearance, will wear well and is a very dressy garment. For service it has no equal.

The Rat Coat that was so popular last season will be as good this season. They are in the natural, undyed skins, as well as the fine blended. These are a good, serviceable, warm garment, with handsome seal and natural collar and cuffs. The Hudson Seal Coat for a nice warm garment is a value that you will not be able to duplicate in price for a number of seasons to come.

We have a few Black Pony Coats that we carried from last season that are real values. As Pony Skins cannot be had now at any price, we are closing what we have at very low prices. These are a warm, serviceable fur and will not cost you any more than a good Cloth Coat.

See our line of Fur Coats in the north show window. Come in and get prices and make your selection while the assortment is good. Many of these values will be hard to duplicate later. Notice how these Coats are made. See the interlining and stays on all seams. We want to show you this line of Fur Coats.

A policeman was called to North Main street Sunday afternoon to arrest Arthur Kizer, a Websterville section hand, who was locked up on an intoxication charge. Immediately he became seriously ill and a doctor was called to the station to attend him. He will be arraigned in municipal court this evening.

#### WALSH GOLF CHAMPION.

Defeated H. Brown at the Barre Golf Club Links.

The final of the 1918 Barre Golf club championship was brought to a close on Saturday afternoon, E. J. Walsh and H. Brown having been left to play off in a 36-hole match play to decide the winner. The match was a little one-sided for quite a while, as Walsh had a comfortable lead until he entered on his third round. It was then that Brown pulled off some good play and was able to carry the match well into the fourth round, but the lead was too much and the match ended on the fifth green the last time round, Walsh winning by five up and four to go.

Walsh has played wonderful golf all season and during the championship he has played some very low scores, having won the low gross in the qualifying round with a low score of 60. Brown did very well all through the tournament.

The draws in the championship this season were very disappointing, as it brought all the stronger players in one half. The final of the second night was also played off on Saturday afternoon, a match of 18 holes, Joe Fraser and A. W. Freeland being the ones left to decide. This match was very close, Freeland being a little the stronger player and he won out.

#### TALK OF THE TOWN

You want a coat; see Abbott's line. John Lamperti of Central street, one of the 1918 graduates of Spaulding high school, received notification of his appointment to a position as a clerk in the government buildings at Washington, D. C., Saturday forenoon. Mr. Lamperti expects to leave the city for Washington to commence his new duties within two weeks.

#### War Speaking Work Consolidated.

Nelson B. Ballard, local manager of four-minute men, has received the following instructions from the national committee of public information:

In the interest of economy and efficiency, the division of four-minute men of the committee on public information has taken over the work of the speaking division of the same committee.

Hitherto, the four-minute men have taken charge of all speaking to "ready-made" audiences, in theatres, lodges, churches, etc., in all parts of the country; while the speaking division has provided special orators for war rallies and patriotic meetings called together mainly to hear these orators.

In the course of their work the four-minute men have built up a very complete organization, reaching into almost every community in the United States, Alaska, Porto Rico, Cuba and the Philippine Islands.

This organization is now available for the routing and reception of distinguished orators, insuring also that the greatest possible number of people in each community may profit from their visits by hearing the messages they bring.

The consolidation effects a material saving in time, energy and money, since the four-minute machinery is in constant operation and does not require reorganization to receive each distinguished speaker.

It is anticipated that many more communities will be privileged to see and hear such groups of veterans as the Blue Devils of France, recently routed through the speaking division, and also that many more similar groups or individual veterans may be sent out as a result of the consolidation.
